1. For the period from 1 Oct to 31 Dec 2015, electricity tariffs will decrease by an average of 9.3% or 2.06 cents per kWh compared to the previous quarter. The tariff reduction is due to the lower cost of natural gas for electricity generation which fell by 18.4% compared to 3Q 2015.

2. The electricity tariff for households will be revised to 20.35 cents per kWh for 4Q 2015. The average monthly electricity bill for families living in four-room HDB flats will decrease by \$8.78.

3. SP Services reviews the electricity tariffs quarterly based on guidelines set by the Energy Market Authority (EMA), the electricity industry regulator. The tariffs given in Appendix 1 have been approved by the EMA.
